

REMOUNT BUYERS HAVE BUSY DAY IN BASSANO

"BILL" JAY FINDS IT VERY DRY AT THE FRONT

"Bill" Jay, writing from the front to friends in town, is responsible for the following: "I am enjoying a sprained ankle, done coming out of the trenches. We are resting now so it will be all right in a few days. . . . I can't tell you any news because you know more about what is going on here than I do. All I know anything about is what I am in. Suppose you have read about our scrap at Ypres long ere this. Pretty good, don't you think for us pogwomps, by gosh? I would like one long drink of Calgary Export right now. Ah, so damn dry my tee are cracking."

Fine Ranch of Animals Offered. Several Thousand Dollars Left With the Farmers and Ranchers.

Last Friday was a regular day in Bassano. The government remount purchasers were in town and were kept busy from early morning till after six at night inspecting the horses brought in for sale by the various farmers and ranchers. The buyers made the remark that never yet had they been offered such a desirable bunch of animals in any one town. They certainly were a picture and it seemed a pity to see such fine animals going out of the country to be probably all shot to pieces. The rejections were comparatively few and the prices paid were very satisfactory to those offering the horses for sale. A total of fifty eight animals were purchased and the prices paid made the amount of hard cash left in circulation at Bassano amount close to \$10,000.00.

The highest price paid during the day was to McDougal Bros. for a team of transport horses, \$425.00.

All day long the grounds were visited by numerous townsmen and an occasional nervous beast would provide a touch of excitement by an exhibition of bucking. Most of the riders were experienced men and could stay down in the saddle, but there were one or two exceptions to this.

When the afternoon train pulled in the passengers were quite taken with the signs of an exhibition and those with cameras took advantage of the occasion to secure a few picturesque scenes.

The purchasing party consisted of L. S. Manner, buyer; Dr. Rhytle, veterinary; and Mr. Brewster, brand inspector. The animals were loaded and shipped east on a through freight on Friday night.

1st. OF JULY SPORTS

Since there has been no step made in the matter of a celebration in Bassano on July 1st, the band boys have taken the matter into consideration and if they can see their way clear to handle the proposition, proceedings will be laid out immediately. The programme will not likely be so extensive as last year, but it will keep the ball a rolling as per usual.

You can save money on Boots and Shoes, Dry Goods and Men's Wear at the Bassano Trading Co. "Selling Out."

AN INGENIOUS GUN TO CUT BARBED WIRE ENTANGLEMENTS

FOR the first time in the history of warfare barbed wire entanglements are being extensively used in delaying the approach of the enemy and have proved a very serious obstacle for an advancing army. The gun shown in the photograph shoots a projectile to which a cable is attached, the knives shown at the end of the cannon cut the wires and this instrument is again drawn back on a windlass.

Local Ball Players Showing Up Well

The Bassano ball players have developed into an efficient organization, and the exhibition game on Sunday afternoon was quite an attraction for the townspeople. The team ball club is quite a strong organization, this year and it seems a pity there has been no league to give the boys a chance to try their metal. It is possible that Bassano will play in Glenora at the time of the stampede, but this point has not been definitely decided as yet.

Homesteader Sentenced for Petty Theft

As a result of thefts from buildings erected by the Canadian Pacific Railway on farms in the Irrigation Block, the Mounted Police recently arrested a homesteader in the Red Deer district, north of Brooks. In his possession certain missing windows were found. The offender was sentenced to two month's imprisonment and payment of a fine, and it is hoped his experience will discourage any further appropriations of this nature.

Fenlon & Sinclair Lease McGuire Pool Room

Messrs. McGuire and Cobblehead were down from Calgary this week on business in connection with their pool room. They have leased the pool room and barbers shop to J. Fenlon and "Bob" Sinclair, both well known barbers in Bassano.

A Steel Fishing Rod given free to the person catching the largest fish at Bassano during June and weighed on our scales. —Flanagan Bros. Hardware, Bassano.

OFFICERS ELECTED FOR AGRICULTURAL SOCIETY

Bassano is Quickly Getting in Line as an Important Agricultural Centre. New Society Will Encourage Farming Industry.

The adjourned re-organization meeting of the Bassano Agricultural Society was held in the Town Hall on Tuesday afternoon and met with a comparatively small attendance. However, this can be easily explained on account of the busy season for the farmers and the distance a great number of them would have to travel on a day when the weather was not any too promising. Officers were elected as follows:

President, H. O. Strange.
Vice Presidents, H. W. Patton and A. L. Fryberger.
Directors, H. O. Bredin, S. A. Watson, H. Marquardt, O. Dehler, A. C. Weaver, Mr. Saar, W. J. Yee, Dr. Wright and Ira W. Shoop.

The directors will appoint a secretary-treasurer at their pleasure.

At last the organization is in working order, with an initial membership list of about thirty names, and holds assurance of good support if gone ahead with in the proper spirit. This is an enterprise well worthy of any effort the business men of the town can give to help it along and no doubt within a couple of years will be an important factor in this coming agricultural district.

Fine Bassano, 25c. per dozen. —Bassano Trading Co.

A FINE PERCHERON STALLION FOR PANDORA FARMERS

A fine Percheron stallion arrived in Bassano on Friday last, consigned to the Pandora Horsebreeders' Association. The horse, which is a fine animal in every way, belongs to the Department of Agriculture of the Dominion Government and was procured by the Pandora Horsebreeders' Association through the efforts of Mr. Mavor, the Government Candidate for the Bow River constituency.

Mr. Mavor has repeatedly shown his willingness to aid the farmers of this constituency to attain the very best advantages the country has to offer, and this is but one instance where his efforts have been crowned with success.

We believe the farmers will appreciate this effort on the part of the Bow River government candidate and their appreciation will no doubt result in the procuring for Bow River a number of such commodities that are within the power of the government to grant.

The farmers of Pandora live in a country particularly adapted to the breeding and rearing of horses, and it is the aim of the government to encourage and assist in the raising of highest grade animals only, so that the farmer may realize the maximum return on his time and investment.

It is only in cases like this example—where the government and people work together—the most satisfactory results can be accomplished. It is a large undertaking in Canada, where the country is so vast and the population so sparse, for the present government to pioneer in pursuing this policy as far as the means at their disposal will permit.

FRENCH SOLDIERS BUILDING A HUT IN THE ARGONNE FOREST

Prior to the present great War Armies were rapidly moved about, the soldiers using tents for shelter. The use of trenches containing a large amount of work and slow progress has caused many shelters of a permanent character to be built.

DOMINION PARKS BRANCH ISSUES NEW PAMPHLETS

The Dominion Parks Branch has recently issued three publications which are noteworthy on account of the attractive form in which they are printed and the interesting matter they contain. They are: "Classified Guide to Fish and their Habitats, Rocky Mountain Park"; "The Nakim Cave"; and "Glaciers of the Rockies and Selkirk".

The Fish Guide is written for the sportsman and naturalist rather than the scientist. It is a compilation of first-hand information for anglers by one who has fished in all the principal waters of the Park. It takes up each locality, describes the best means of reaching it, the different varieties of fish which can be secured, and the best bait to use. The game fish of the Rockies include five species of trout, one of which—the Lake Minnow—has been introduced to the Park. The Grayling, the Dolly Varden and the Cutthroat trout are found in many of the lakes and streams of the Park and a fish hatchery has recently been established at Banff for the purpose of restocking those which have become depleted.

The second pamphlet gives an interesting account of the formation, character and discovery of the famous Nakim Cave near Glacier, B. C. These interesting natural curiosities are supposed to be about 40,000 years old and consist of a series of underground chambers, some of them fifty feet high and more than two hundred feet long, hollowed out partly by erosion and partly by volcanic action, and opening into each other at different levels. The walls of the caves covered with strange discolored limestone formations and they reverberate to the roar of underground torrents. The different chambers have been given names suggestive of their character: "The Pit," "The Marble Way," "The White Grotto," "The Bridal Chamber," etc., and when they are lit with electricity and proper guards and handrails have been placed on the stairs and platforms, they should be among the most interesting sight in the Rockies for tourists.

"Glaciers of the Rockies and Selkirk" by Dr. A. P. Coleman, professor of geology in the University of Toronto, and bears on the cover an attractive reproduction in color of a sketch of Mt. Zail, one of the picturesque peaks near the Divide. Dr. Coleman is a scientist with the imagination of a poet and he has written the story of the formation and work of the Canadian glacier with all his well known literary charm.

The pamphlets may be obtained upon application to the Dominion Parks Branch, Ottawa, without charge.

Reall Ordinances are a specific for the bowel troubles of ageing people. Sold only by J. H. Stiles, The Reall Store, 106, 256, and 800, boxes.

BIG MILITARY PROGRAM AT CALGARY EXHIBITION

"Recognized as the Lucky Man of Today" is the legend of the picture on a very neat bill announcing the Calgary Industrial Exhibition for June 30 to July 7. The "Lucky Man" is the farmer who in this instance is on top of a load of hay. Farmers, stockmen, housewives, boys and girls are all interested in Calgary's splendid fair because of the precious premiums offered for exhibitors, but for those who are looking for something more spectacular there is a very interesting program. Over six thousand soldiers who are to be mustered will participate in the grand military program and fireworks spectacle, and with the usual attractions, and the fair this year promises to be more interesting than ever it was. Several from this section are arranging to take advantage of the cheap rates and use the big Calgary exhibition.

SOME BENEFITS OF IRRIGATION

Concerning the benefits of irrigation in Alberta, Mr. Phillip J. Umbrin, of Gleichen, Alberta, writes:—"I came here in 1909, taking a quarter section of land, of which about 97 acres are irrigable, and have used water on that part more or less every year since. I consider, from my observations, that in ordinary years the irrigation of grain crops will result in an increased yield of about ten bushels to the acre while in years of drought the increase will be from 20 to 30 bushels per acre. This year (1914), I have had about sixty acres of wheat irrigated in June, which have given over thirty-five bushels to the acre, but wheat grown on dry land, will not exceed 15 bushels.

"Last year, off 30 acres irrigated, I threshed 41 bushels per acre of No. 1 wheat, while off 25 acres not irrigated I threshed 22 bushels. This crop was on properly summer-fallowed land, which does not show irrigation to the best advantage, as a fall crop can always be expected off properly summer-fallowed land.

"I have now over twenty acres in alfalfa, which includes a new ten acre field which I seeded last year. I consider this one of the best paying crops provided water is used. Without water it is no crop at all. The same holds true of timothy. Of the sixty acres mentioned about 30 was summer-fallowed, that yielded over 35 bushels to the acre, the other 30 was stable land and did not yield so well."

BASSANO TRADING COMPANY

BASSANO (SELLING OUT---RETIRING FROM BUSINESS) ALBERTA

RE CORRESPONDENCE FOR PRISONERS OF WAR-IN GERMANY

1. Letters (letters should be left open), postcards and postal parcels should be addressed as follows:

1. Rank, initials, name.

2. Regiment or other unit.

3. British (or Canadian), French, Belgian or Russian prisoner of war.

4. Place of internment.

5. Germany.

Place of internment should be stated, if possible, and parcels cannot be accepted unless place of internment is stated. All addresses must be in ink.

2. Communications should be limited to private and family news and to necessary business communications, and should not be sent too frequently.

No references to naval or military movements and organizations are allowed. Letters or postcards containing such references will not be delivered.

3. Friends of prisoners of war are advised to send postcards in preference to letters as postcards are less likely to be delayed. If letters are sent, they should not exceed in length two sides of a sheet of note paper and should the writing be crowded.

4. Letters cannot for the present be accepted for registration.

5. Postage need not be paid either on letters or parcels addressed to prisoners of war.

No letters should be enclosed in parcels and newspapers must not on any account be sent. So far as is known there is no restriction on the contents of parcels; tobacco may be sent and will be admitted duty free but food stuffs of a

perishable character should not be sent. Parcels should not exceed 11 lbs in weight.

7. Remittance can be made by money order to prisoners of war. Instructions as to how to proceed can be obtained from Postmasters of Accounting Post Offices. The transmission of coins, either in letters or parcels, is expressly prohibited. Postal notes and Bank notes should not be sent.

8. It must be understood that no guarantee of the delivery of either parcels or letters can be given and that the Post Office accepts no responsibility. In any case, considerable delay may take place and failure to receive an acknowledgment should not necessarily be taken as an indication that letters and parcels sent have not been delivered.

9. So far as is known, prisoners of war in Germany are allowed to write letters

or post cards from time to time; but they may not always have facilities for doing so and the fact that no communication is received from them need not give rise to anxiety.

MECHANICS GO ABROAD

Toronto, May 31.—One hundred members of the Amalgamated Society of Engineers will leave Toronto, London, St. Thomas, Stratford, Hamilton and Montreal to-day for

curious that a subject which is scarcely
known to any other in the importance
of a girl's education of a serious kind?
"What!" cries Mrs. Grundy, "would
you have a modest young lady go to
a man and ask him to marry her?" This
is supposed to end the discussion, except
for flippant jokes. But does it?
Paul proposed to her husband. He
remained to her one day. "All right,"
she says, "I am engaged." "Why not?"
he said, "I am sure I should be very
happy."

Delaware, who dug the Suez canal,
was proposed to when past sixty by a
girl under 16, and married her.

Friend, in "The Courtship of Miles
Standish," asks: "Why don't you speak
for yourself, John?"

Many showed philosophers declare
of the modern woman that, though the
man seldom knows it, she nearly always
does the proposing.

If a color is not white it is necessarily
black; if there is middle ground that
love, delicate and tact may take.

Are not proposals spontaneous? Matters
of detail will take care of themselves,
and especially if women are the prime
movers, will shape themselves always
in grace and delicacy. For not in mere
formality, but far deeper, is the true
modesty and beauty of girlhood and
womanhood.

BASSANO BRANCH - G. W. BOYD, Manager

THE TOWN OF BASSANO, ALBERTA

By-Law No. 88

A By-Law of the Town of Bassano to Provide for Borrowing \$10,000 Upon
Debentures to Pay for Completing a Gas Well Owned by the Said
Town and for Piping the Gas from Said Well to the Residents of the
Said Town.

WHEREAS the Town of Bassano has heretofore partially completed the drill-
ing or boring and equipping of a Gas Well near the said Town;

AND WHEREAS it is necessary to complete the boring and equipping and
of the said Gas Well and to distribute the gas therefrom to the residents of the
said Town;

AND WHEREAS the estimated cost of completing the said well and distributing
the gas therefrom as aforesaid is \$10,000;

AND WHEREAS in order to carry into effect the execution of the said objects it will be
necessary for the said Council to issue debentures of the corporation of the Town of
Bassano for the sum of \$10,000 to be used for the purpose of the principal money;

AND WHEREAS the total estimated cost of the municipality outside of the debt
incurred by the said Town is \$1,780,457;

AND WHEREAS the amount of the rateable property of the said municipality
according to the last revised assessment roll is \$1,780,457;

AND WHEREAS the total estimated cost of the municipality outside of the debt
incurred by the said Town is \$1,780,457;

AND WHEREAS it is expedient that this By-Law shall take effect on the final
passing thereof;

Now THEREFORE, the Municipal Council of the Town of Bassano, duly assem-
bled, enacted as follows:

(1.) That the Mayor and Secretary-Treasurer of the Town of Bassano are
hereby authorized and empowered to borrow, on behalf of the Town, a sum or
sums of money not exceeding the sum of \$10,000.

(2.) That the said sum shall be expended for the completion of the said work
and distributing the gas as aforesaid and for the purpose of raising the said loan
one or more debentures of not less than \$100.00 each of the said Town, not to ex-
ceed in the aggregate the sum of \$10,000 as aforesaid shall be issued, each of which
debentures shall be dated on the day of the issue thereof and shall be payable at
the end of thirty (30) years and that coupons shall be attached to the said debentures
for the half yearly interest thereon at the rate of six per centum per annum
and the said debentures and coupons shall be made payable at such place as the
Council may decide upon.

(3.) That the said debentures shall be signed by the Mayor and Secretary-Treasurer
of the Town of Bassano, and sealed with the seal of the corporation of the
Town of Bassano; and the said coupons shall bear the signatures of the Mayor and
Secretary-Treasurer of the Town of Bassano.

(4.) During the currency of the said debt there shall be raised annually by
special rate over and above all other rates on all the rateable property of the
Town of Bassano the sum of \$778.30 being the amount required to pay the interest
on the said debt in each and every year and to form a sinking fund for the
payment of the principal money at the end of the said period of thirty (30) years.

(5.) The Council of the Town of Bassano is hereby authorized and empowered
to control and operate the said gas well in the afternoon of the same day and
under such rules and regulations as the said Council may prescribe.

This By-Law shall take effect on the final passing thereof.

(7.) The votes of the duly qualified Burgesses of the Town of Bassano, shall be
taken on the 11th day of June, A. D. 1915 in the Council Chamber on
Fourth Street East in the Town of Bassano, commencing at ten o'clock in the
forenoon and continuing to seven o'clock in the afternoon of the same day and
the Returning Officer for taking the said votes shall be George Brenton Bowley
Bond.

(8.) The said Council Chamber at eleven o'clock in the forenoon on Saturday
the 12th day of June, A. D. 1915, is the place and time when the said Returning
Officer shall open the number of votes for and against the By-Law.

(9.) The said By-Law shall be finally passed by the Council of the Town of
Bassano, and if the same shall be passed by the Council, the Mayor, shall
read a first and second time in open Council this 11th day of May, A. D. 1915,
(signed) W. J. YEO, Mayor.

GEO. B. B. BOYD, Secretary.

Read a third time and finally passed in open Council this day of
A. D. 1915.

Mayor.

Secretary.

NOTICE

The foregoing is a true copy of a proposed By-Law which has been introduced
and provisionally passed by the Mayor and Council of the Town of Bassano and
which will be finally passed by the Mayor and Council in the event of the assent
of at least two-thirds of the Burgesses of the Town being obtained. Within
four weeks of the voting thereon, which said date of voting is the 11th day of
June, 1915, and the place and time of voting shall be in the Council Chamber
on Fourth Street East in the Town of Bassano from ten o'clock in the
forenoon to seven o'clock in the afternoon of the same day, which all per-
sons are hereby required to take notice and govern themselves accordingly.

Dated at the Council Chamber at Bassano, Alberta, this 11th day of May,
A. D. 1915.

GEO. B. B. BOYD, Returning Officer.
